Testing

Our Capabilities - Quality Control

100% crimping inspection

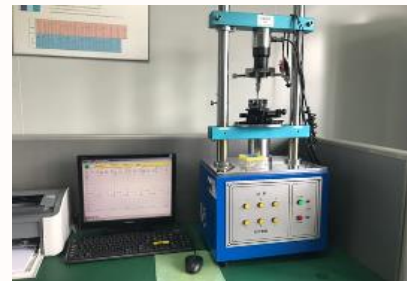

100% continuity test

Roving inspections at 4-hour intervals

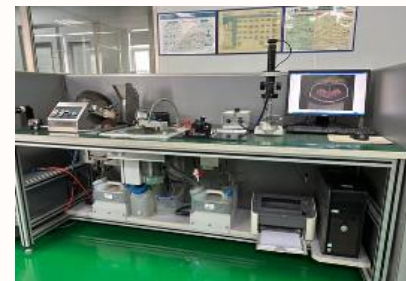

Sampling test of incoming materials

Assisting in analyzing quality issues

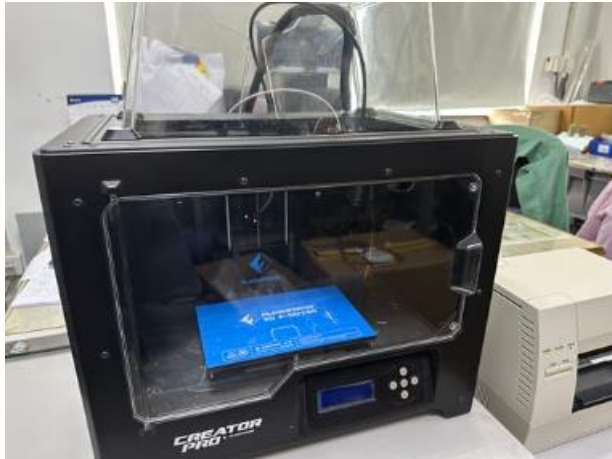

Performance verification of substitutions

Our Capabilities - Developing

Early development support

Wire harness design & materials selection

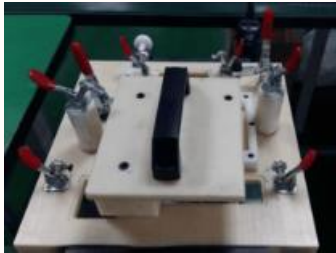

Technical Support throughout the product lifecycle

Optimize operation procedures

Design fixture & tools

Continuously improvement of production efficiency

Our Supplier Chain Partners

16,000+ kinds of components from 800+ brands

Our Vision for the Future

1

Innovation

We are committed to ongoing innovation, with a focus on developing new products and applications to meet the evolving needs of our customers.

2

Expansion

We are exploring new markets and opportunities for expansion, with a goal of increasing our global reach and providing even more value to our customers.

3

Continuous Improvement

We are committed to continuously improving our processes, services, and products. To achieve this, we use tools like LEAN to identify areas for improvement and implement sustainable solutions.

Our Commitment to Sustainability

Sustainable Energy

We are committed to reducing our carbon footprint and minimizing our impact on the environment through the use of sustainable energy sources.

Waste Reduction

We have implemented a comprehensive waste reduction program that includes recycling and the use of eco-friendly materials.

Community Involvement

We are dedicated to giving back to the communities in which we operate, with a focus on supporting sustainability initiatives and education.

Thanks for your Attention.

We hope you enjoyed learning more about our company and what sets us apart in our industry. Feel free to reach out to us with any questions or feedback, and we look forward to working with you in the future.
